Lonely
for keyboard and electronics

Circa. 5 minutes

Composed Spring of 2018

Set-Up

The keyboard is to be routed through an effects bus loaded into your performance DAW of choice.

This piece requires the free Izotope plug-in Vinyl, which can be downloaded here:

<https://www.izotope.com/en/products/create-and-design/vinyl.html>

The Ableton Live 9 Session for the piece, the fixed portion, and the accompanying video can be found on my website: drakedragone.net

Performance Notes

This piece is played over a fixed media audio file accompaniment. The keyboard needs to fade in and out during the piece by using the left hand to turn the volume up or down. Start the piece on full volume and adjust as the score calls for.
